Salmon Nation Artists Project is a tribute to the unique blend of communities, history and sustainable attitudes of the Salmon Nation bioregion. Over thirty artists represent these elements through poetry, music, stories, photographs and fine art in a unique auditory CD compilation and accompanying visual art booklet. It is a tribute to the creative communities within the Salmon Nation bioregion and a culmination of over two years of collaboration between artists, individuals, organizations and community members. It is a compilation that ties us to the land, to our people, our communities and our future; a cultural thread weaving a story we cannot tell on our own.

We invite you to join us for a special evening celebrating the release of the Salmon Nation Artists Project CD. Meet the people behind this Project, hear live performances and view work from the contributing artists at this remarkable event. Open to the public; CDs for sale, \$15; ATM available in lobby.
